
COVID 19 - Risk assessment template – Water Based Activities – COMPETITORS, RIB DRIVERS AND CREW, RACE OFFICERS and HELPERS at the Royal Solent Yacht Club as required by The Health Protection (Coronavirus, Restrictions) (Steps) (England) Regulations 2021

Organisation name: Royal Solent Yacht Club

Assessment carried out by: Alan Sheward and Tom Symes

Date assessment was carried out: 31st March 2021 Reviewed 6th April 2021, no changes. Date of next Review – 13th April 2021

The Royal Solent Yacht Club (the 'Club') has carried out this risk assessment of the Club's sailing activities to satisfy the requirements of regulation 3 of the Management of Health and Safety at Work Regulations 1999. It has been carried out in direct response to the requirements of organisations to Covid 19 some of which is outlined in law.

The Club's sailing activities involve competitors, RIB drivers and crew, Race Officers, Club staff and helpers. Separate Risk Assessments have been carried out for the particular issues presented in Grants due to the COVID-19 pandemic.

With effect from 4th April 2021 the Club will be running a Spring Series for Cruisers, Folk Boats and Day Boats. Racing will be run from Grants, not from the Committee vessel.

Government COVID-19 advice must be followed, particularly with regard to social distancing. This guidance changes and it is the responsibility of each individual to ensure that they are familiar with it, over-riding this risk assessment if necessary. Competitors, rib drivers and crew and helpers must be conservative and be mindful of others. The risk assessment will be reviewed and updated as guidance or requirements change.

No one may participate in racing unless they have completed fully the Condition of Entry forms and they have read and understood this Risk Assessment. Competitors may have their temperatures taken electronically prior to sailing. Sailing is by its nature an unpredictable sport and

therefore inherently involves an element of risk. This activity is for competent people capable of making their own decisions and sailing without support from others. The responsibility for a boat's decision to participate in the activity is hers alone.

What are the hazards?	Who might be harmed and how?	What are you already doing to control the risks?	What further action do you need to take to control the risks?	Who needs to carry out the action?	When is the action needed by?	Date Assurance Provided
Social Distancing difficult to achieve when launching and recovering dinghies	Beach crew and sailors if social distancing not observed	<ul style="list-style-type: none"> - Limit overall numbers and allocate sufficient time to avoid crowding. - Allocate space for each class in dinghy park - Move any dinghies not sailing to make as much space available as possible - Sailors to arrive changed ready to sail. Changing room facilities closed. - Timed and staggered shifts for launching different classes - Signage - alcohol gel to be used on arrival and prior to touching any shared surfaces and on departure - Good communication 	Identify congestion and pinch points providing distance markers or signage requesting social distancing. Event co-ordinators who will take overall responsibility ns ability for ensuring the Club's procedural document has been implemented.	Club, Sailors and Helpers Event coordinator.	Immediate
